FOR IMMEDIATE RELEASE

Morbark Adds New Gas Powered Stump Grinder

Winn, Michigan (August 1, 2011) – Morbark[®], Inc. announces the all-new, powerful, lightweight and affordable Morbark G 42 SP Stump Grinder. Designed incorporating customer feedback, the self-propelled G 42 SP is equipped with a gas engine, 42” wide boom arc swing and utilizes all steel construction.

Aimed at landscapers, stump grinding contractors, and rental stores, the Morbark G 42 SP Stump Grinder is an ideal unit for grinding smaller stumps. Equipped with horsepower options of either 27 or 38-HP, this stump grinder really packs a punch. It’s compact size, power and affordability allows customers the ability to expand their business, or generate new business with a modest capital investment.

“Development of the Morbark G 42 SP Stump Grinder originated with customer input,” states Jason Showers, Morbark Tree Care Product Manager. “Knowing our customers, their environment and their needs allows us the opportunity to help with their success. With the addition of this unit Morbark now offers five models of stump grinders to fit any application and budget.”

Standard equipment on the Morbark G 42 SP Stump Grinder includes 5-up comfort grip fingertip controls, an electric clutch with cutting system brake, three cutting system options and high gloss Morthane paint.
