

# MORBARK®

MADE FOR **MORE** TO KEEP PACE WITH **YOU**

# PS8 POST PEELER

The **Morbark PS8 Post Peeler** is available in either stationary or portable models and will peel posts from 3" to 12" in diameter (7.6 cm – 30.5 cm) and 6' to 12' in length (1.8 m – 3.6 m). This productive machine can peel up to 2,000 eight-foot (2.4 m) posts during an eight-hour shift. With optional infeed and outfeed supports, the unit can accommodate longer lengths. An outfeed is available for stationary units to transfer and index posts onto a transfer chain or bunk. All Morbark post peelers use a split peeling head with carbide-tipped cutterhead teeth to remove bark and knots and planer knives to provide a smooth surface with only one pass through the machine.

## FEATURES AND BENEFITS: STATIONARY

- Center section complete with debarking mechanism, combination carbide teeth and planer knife cutterhead
- Hydraulic feed wheel drive
- Stationary infeed and outfeed wood rests
- Hydraulic controlled infeed shoe
- Hydraulic top yoke
- 33" (83.8 cm) support legs-unit height 38" (96.5 cm) to top of wood rest
- Motor base (specify frame size) and V-belt drive

## FEATURES AND BENEFITS: PORTABLE

- Peeler mechanism including planer type cutterhead with rubber tired outfeed wheel
- Hydraulic drive
- Stationary infeed and outfeed wood rest
- Hitch and wheels
