

MORBARK® 2355 FLAIL CHIPARVESTOR®

FEATURES

- » Three top feed rollers mounted on yoke assemblies
- » Five stationary bottom feed rollers
- » Dual horizontal chain flails with patented segmented drums are equipped with eight flail chain rods
- » Discharge system consisting of 60 ½" (1.54 m) wide x 23' (7.01 m) long telescoping drag chain conveyor with hydraulic drive
- » Air curtain
- » Morbark Integrated Control System allows for fine adjustment of speed so that bark removal is maximized with minimal "good" fiber removal.
- » 75" (190.5 cm) diameter chipper disc with three- or four-knife configuration
- » Built-in dirt separator, debris is bottom discharged into dual 12" (30.48 cm) diameter twig augers which discharge directly into the 23' (7.01 m) refuse drag chain
- » Hydraulic swivel/telescoping discharge spout
- » Reversing fan
- » Enclosed weatherized operator's cab is mounted on rubber shock absorbers and tilts hydraulically for transport and includes combination air conditioner/heater and six-way adjustable seat and joystick controls
- » Morbark 500 knuckleboom loader, 23' (7 m) reach, 180° swing and by-pass grapple, lift capacity of 17,200 lbs. (6,894.6 kg) at 10' (3.05 m)

OPTIONS

- » Rail car extension for discharge chute
- » 4-Knife disc in lieu of standard 3-knife
- » Additional third flail drum
- » Push Ram discharge in lieu of standard discharge
- » Foot pedal loader swing for Knuckleboom loader
- » ESPAR heating system for dual engine option
- » Less Cab and Loader
