

Job Specification: Aftermarket Parts Inventory Manager

JOB DESCRIPTION SUMMARY

The Aftermarket Parts Inventory Manager's main goal is to support aftermarket parts sales by providing inventory assistance. The Manager's primary day-to-day responsibility will be to understand historical and future trends in customer demand and use the information to refine inventory stocking levels and improve customer on-time delivery of aftermarket parts. The position will answer directly to Morbark's Manager of Warehousing and Inventory Control. The Manager will also communicate often with the Parts Sales division, assisting with demand forecasting and part shortage resolution.

This person must possess a "whatever it takes" attitude to facilitate the smooth transaction of daily activities and to achieve future goals of the Warehousing and Inventory Control Group, Parts Sales and Morbark.

REQUIREMENTS

EDUCATION

- Bachelor's degree.

EXPERIENCE

- 3-10 years of professional experience, ideally in an inventory management position; strong analytical skills are required
- Understanding of inventory practices and terms such as "inventory turnover ratio" and "fill rate"
- Familiarity with enterprise resource planning software (such as JD Edwards) and material requirement planning
- Familiarity with bill of materials and routings

SKILLS

- Ability to take charge of a project and see it through to completion, often with minimal direction and without constant supervision
 - Excellent communication skills (both written and oral)
 - Proficient with Microsoft Office (Word, Excel, PowerPoint)
 - Comfortable in a manufacturing environment, including the ability to be out on the shop floor, as needed
-

DUTIES AND RESPONSIBILITIES

- Inventory analysis: routine inspection of aftermarket parts stocking levels to ensure that the correct items are being stocked for customers at levels consistent with the Company's overall inventory strategy
- Management of aftermarket parts demand forecasting, including the use of enterprise resource planning and material requirement planning software

JOB SPECIFICATION: Aftermarket Parts Inventory Manager

- Frequent communication with Parts Sales to assist with inventory shortage resolution and overall part stocking strategy
- Creation and maintenance of Microsoft Excel based reporting that will frequently involve large data-sets
- Any other daily tasks required to support inventory management for aftermarket parts sales

COMPANY OVERVIEW

Morbark, LLC, based in Winn, Mich., has been innovating and manufacturing durable, high-performance equipment for more than 60 years. Morbark's family of companies and equipment helps customers to process and convert waste wood and other organic materials into sellable end products. The Company and its affiliate brands, Rayco, DENIS CIMAF, and Boxer Equipment, produce a full line of brush chippers, stump cutters, mini skid steers, forestry mulchers, aerial trimmers, whole tree, and biomass chippers, flails, horizontal and tub grinders, sawmill equipment, material handling systems, and mulcher head attachments for excavators, backhoes, and skid steers. Sales and aftermarket support are conducted through a worldwide, authorized dealer network. For more information, please visit www.morbark.com
