FOR IMMEDIATE RELEASE

Bobcat of New Castle Becomes Morbark[®] Dealer

Winn, Mich. (October 15, 2015) – Morbark, Inc., is pleased to announce it has signed a contract adding Bobcat of New Castle as the exclusive Morbark[®] tree care products dealer for New Castle county in Delaware. Morbark, Inc., is a leading manufacturer of tree care, forestry, sawmill, and wood recycling equipment.

Bobcat of New Castle is owned by the Garden State Bobcat Group, which also owns Morbark dealers Bobcat of Central Jersey and Garden State Bobcat.

“Morbark tree care products will provide our dealership the capability of providing a world-class product to our customer base in the tree care, government, rental and construction markets,” said Rob Woods, President of Bobcat of New Castle. “Morbark products align perfectly with our mission of providing the best customer equipment solutions and best product support in the marketplace.”

“We are excited to add Bobcat of New Castle to our dealer network,” said Casey Gross, Morbark tree care products sales manager. “They have been serving their local tree care market for more than 30 years, and this experience and local knowledge will greatly benefit our customers.”

About Bobcat of New Castle:

Bobcat of New Castle is Garden State Bobcat Group’s third equipment dealership. Located conveniently on Rt. 13 in New Castle, DE, the dealership is within close proximity to their customer base in Delaware, Eastern Maryland and Southern NJ. Bobcat of New Castle represents industry-leading manufacturers such as Morbark, Bobcat Co., Protech Corp, Fecon and Towmaster. Garden State Bobcat Group has provided Sales, Rentals, Parts and Service of compact equipment for over 30 years.

About Morbark:

Morbark, Inc., based in Winn, Mich., has been innovating and manufacturing durable, high-performance equipment for the forestry, recycling, tree care, sawmill and biomass markets for more than 50 years. Morbark equipment helps customers harvest, process and convert wood and other organic waste materials into valuable, useful and profitable products. The company produces a full line of whole tree and waste wood chippers, flails, brush chippers, horizontal and tub grinders, sawmill equipment, material handling systems and more.
