

MORBARK® DENUBBER™ DEBARKER HEAD

BENEFITS

- Faster than traditional heads
- Smoother, more efficient debarking
- Lower maintenance costs
- Only need one tool to remove tooth
- DeNubber is balanced with teeth in it
- All teeth are individually attached and can be replaced if singly damaged

Replaceable Teeth

Individually positioned cutting teeth are replaceable at a low cost and in minutes.

Unique Cutting Action

Actually cut, creating chips that could be sold as mulch.

Interchangeable

The DeNubber head can be interchanged and installed on Morbark debarkers.

Thorough Debarking

Logs are thoroughly debarked and defects removed to help prevent trouble while sawing.
