- Bachelor's degree in engineering field

EXPERIENCE

- Prior experience in engine and/or engine subcomponent design, selection, and testing
- Experience working with Engineering and Manufacturing departments
- Project management experience in interfacing with multiple/concurrent projects
- Solid Edge experience preferred

SKILLS

- Ability to read and interpret Engineering drawings
 - Strong communication, interpersonal, leadership, and teamwork skills
 - Ability to work with a diverse group of employees and customers
 - Ability to effectively understand and communicate with individuals at multiple levels of the organization
 - Working knowledge of Microsoft product suite; ability to productively use MS Office software
 - Strong organizational and time management skills
 - Qualification to work in the United States
-

DUTIES AND RESPONSIBILITIES

- Select engines for product use
 - Coordinate with Engineer for performance requirements
 - Coordinate with Purchasing Department for timing/availability
 - Coordinate with Sales Department for customer preference
- Determine or design engine subcomponent and packaging requirements
 - Design or select cooling and exhaust subsystems
 - Design enclosures
 - Coordinate with clutch suppliers for attachments
 - Work with CAD team to ensure proper model and BOM generation

JOB SPECIFICATION: Engine Specialist

- Validate engines and engine packages
 - Determine validation needs
 - Establish test plans
 - Run, direct, or coordinate actual product testing
- Work with Engineering and Quality teams to drive down warranty occurrences and expense
- Identify training opportunities and help develop training needed to improve the overall organization's development
- Create reports for management outlining current project status or current issues
- Keep a working log of open issues, design issues, and timelines for resolutions
- Contribute to problem resolutions and participate in problem-solving activities when needed
- Travel time up to 10% may be required for this position

COMPANY OVERVIEW

Morbark, LLC, based in Winn, Mich., has been innovating and manufacturing durable, high-performance equipment for more than 60 years. Morbark's family of companies and equipment helps customers to process and convert waste wood and other organic materials into sellable end products. The Company and its affiliate brands, Rayco, DENIS CIMAF, and Boxer Equipment, produce a full line of brush chippers, stump cutters, mini skid steers, forestry mulchers, aerial trimmers, whole tree, and biomass chippers, flails, horizontal and tub grinders, sawmill equipment, material handling systems, and mulcher head attachments for excavators, backhoes, and skid steers. Sales and aftermarket support are conducted through a worldwide, authorized dealer network. For more information, please visit www.morbark.com
